INDICATEUR SERIES

Flo-tites High Visual Position Indicateur takes the guess work out of valve position.

The INDICATEUR DIRECT is the direct-mount visual valve position indicator of choice. In addition to superior valve position indication, the unit has a rugged design suited to withstand harsh plant environments and operations.

- **Environmentally sealed indicateur** prevents fogging or entry of contaminants.
- **"Weep" holes** keep moisture from accumulating anywhere on the enclosure.
- **Clear cover** is free from decals or paint that fade in sunlight or during plant washdowns.
- **Ektar indicator cover** offers excellent chemical resistance and strength.
- **Molded from DuPont's SuperTough Zytel Nylon** for the ultimate in strength and corrosion resistance.
- **No bracketry required** for actuators with the NAMUR accessory mounting pattern.
- **The industry's only "true" visual valve** position indicator for Multi-Ported valves - indicator is fully adjustable to match the actual valve.
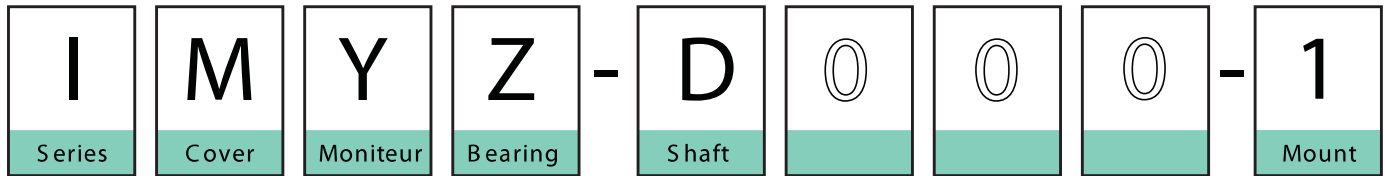

VISUAL INDICATOR OPTIONS

Color	Model #	
Black / Yellow	I2	
Green / Red	I3	
Red / Green	I4	
ANSI Red / White	I5	
ANSI Green / White	I6	
ANSI Blue / White	I7	
0-100% Digital	I8	

FLOW PATTERNS

Color	Model #	
3-way Path O	I9	
3-way Path T	I10	
3-way Path F	I11	
4-way Path S	I12	
180 T-port	I13	
180 L-port	I14	
120° Pig Valves	I15
